LYNXSPRING®

Integrated Station Solutions

Turnkey solutions for your building automation and integration systems.

Maximum value. Optimal resources. Reduced time to deployment.

Smart Technology. Smart Equipment. Smart Solutions.

Integrated Station Solutions

Lynxspring Professional Services provides turnkey, integrated station solutions. Our packaged building automation solutions arrive wired, configured, and with pre-loaded software—reducing labor and installation time. Additionally, each solution provides installation and wiring diagrams.

Lynxspring's integrated station solution simplifies project requirements and enables both Niagara-certified field technicians as well as electricians to perform installation services.

Our Integrated Solutions Include:

DISCOVERY

- ✓ Application-Specific Consultation
- ✓ Interior/Exterior Panel Specifications Reviewed
    - o Types of Controllers
    - o Terminal Strips
    - o Relays
    - o LCD Display
    - o Push Button Options

DEVELOPMENT

- ✓ Panel Designed Based on Specifications
- ✓ Niagara Station Developed Specific for the Panel Application

DEPLOYMENT

- ✓ Controller Start-Up
    - o Niagara Installed
    - o Station Loaded

- ✓ Panels Tested Before Shipment

Whether a new project or retrofit— Lynxspring's integrated station solutions include power supplies, and already-wired terminal strips and relays for quick and easy installation.
