FOR IMMEDIATE RELEASE

# Lynxspring Named 2015 ControlTrends Awards Finalist in Multiple Categories

**Lee's Summit, MO - December 1, 2015** - Lynxspring, Inc., (www.lynxspring.com) a premier developer and provider of open, IP-based control solutions for intelligent buildings, energy management, cyber protection and device-to-enterprise integration, announced today that the company has been named as finalists in several categories for the upcoming 2015 ControlTrends Awards.

Taking place January 24, 2016 at the Hard Rock Café in Orlando, Florida, The ControlTrends Awards recognizes people, products and companies who are leading the building controls industry with innovative technologies and solutions that address the changing needs and imperatives facing the industry today.

Lynxspring has been named a finalist in the following categories:

*Building Automation Plant/Equipment Controller of the Year — JENEsysONE®*
*Building Automation Control System of the Year — JENEsys®*
*Best Technical Support Person — Small Manufacturer — Peter Leonard*
*Best Technical Support Company — Small Manufacturer — Lynxspring, Inc.*
*ControlTrends Executive of the Year — Small Manufacturer — Terry Swope, President & CEO*
*ControlTrends Vendor of Year — Small Manufacturer — Lynxspring, Inc.*

"We are honored to have our company and solutions recognized and for our people who are making the extraordinary efforts and impact in our industry," said Marc Petock, vice president of marketing, Lynxspring, Inc.  "We thank the controls industry and community for their recognition of Lynxspring's accomplishments in this market."

**About Lynxspring, Inc.**

Lynxspring is changing the way devices and systems communicate and collaborate across Enterprises.  Embracing open, interoperable IP-based software and hardware platforms, we design, manufacture and distribute leading IP-based automation, cyber security technology, and edge-to-enterprise solutions and services for Building Automation, Energy Management, Cyber Protection, Equipment Control and other Specialty applications. Our technologies are simplifying the architecture across the enterprise, deployment of IoT and significantly lowering costs and enabling users to go further to manage and operate their facilities and equipment smarter, safer, more securely, more efficiently and at peak performance levels. More information is available at: www.lynxspring.com.

**About ControlTrends Awards**

Held annually, the ControlTrends Awards recognizes companies, products, technologies, and individuals who are making a difference in the HVAC and Building Automation Control Industry. Nominees are selected by a global governing body and a nominating committee.  The winners, who are selected by an industry-wide vote, represent the products, technology, and persons who are making an impact and are continuing to move the industry forward. www.controltrends.org.
