GOVERNMENT CAPABILITIES STATEMENT

Smart Technology. Smart Equipment. Smart Solutions. Smarter Buildings.

One Platform. Many Possibilities.

About

Lynxspring® manufactures, distributes, and supports **open building automation** and controls hardware and software for HVAC/BAS, **energy management,** smart buildings, and facility integration. **Niagara Framework®**-based solutions support retrofit and new-construction projects, from single buildings to multi-building campuses serving federal, state, and local **government use cases**. Lynxspring's **E2E® platform**, unified by **Connexxion®**, extends these solutions with edge-to-cloud operational technology (OT) data management.

Corporate Data

UEI: QE47ETB6UDN6

CAGE: 5E0C7

SAM: Active • All Awards • thru 2027-11-06

Small Business:
NAICS 334512, 423690, 561210, 541512, 541513

NAICS: 334512 (P), 423690, 561210, 541512, 541513

PSCs: 6685, 7A21, 5963, 5998, DA10, U012

GSA MAS:
47QSWA23D007F • SINs 334512 and OLM • GSA Advantage

Address: 2900 NE Independence Ave, Lee's Summit, MO 64064

Differentiators

- Manufacturer/distributor of a coordinated hardware and software portfolio built around **open standards,** interoperability, and scalable integration.
- Lynxspring's **JENEsys®** and **JENEsys Edge®** product lines identified as **Made in America** and **BABA-Compliant**.
- JENEsys Edge controllers are eligible for **Federal RMF Accreditation**.
- **Niagara Certification Training Center** and Niagara OEM partner, with technical and product support.
- **Quality Assurance:** SBA profile lists ISO-9000 Series.

Core Competencies

- **Open BAS Modernization** — integrate multi-vendor and legacy systems using BACnet, Modbus, and Niagara Fox; support **open NiCS architectures**.
- **HVAC/Equipment Controls** — programmable control for equipment such as boilers, chillers, heat pumps, air handling units, rooftop units, and VAV applications.
- **Facility/Energy Visibility** — remote data access, dashboards, analytics, control, **energy management**, and supervision across buildings and campuses.
- **Niagara Training/Development/Support** — **Niagara Certification Training Center/Niagara OEM partner**.
- **JENEsys Edge®** — Niagara-based controllers, including 414, 434, 514, 534, 634, and VAV models.
- **Onyxx®** — I/O expansion modules for building and equipment control.
- **Niagara Framework®/JENEsys®/JACE®** (Tridium) — controllers, servers, Niagara N4 licenses, software maintenance agreements, controller hardware, and accessories.
- **E2E® (Edge-to-Enterprise),** unified by **Connexxion®** — independent data layer with **Haystack tagging**, energy analytics, fault detection, remote device management, and open APIs. **SOC 2 Type II compliance**.

Past Performance

From the company's SBA profile (customer names not listed).

1. EQ7PMD-25-0006
   Date: Sep 12 – Dec 31, 2025—Value: $580,658.69
   Details: Under GSA MAS 47QSWA23D007F.
2. 565-Q70275
   Date: Oct 19, 2026—Value: $4,633.43
   Details: Under GSA MAS 47QSWA23D007F.
